

## **Increase Association**

### **Revised 2022 Conference Diaspora Commitment**

We recognise that people groups are migrating and settling across our region of Asia and around the world more than ever before.

We see that God is building and renewing his church in fresh and exciting ways through these diaspora and multi-ethnic communities.

We share a common vision for church-based training resources to be made available across Asia and beyond to equip all Christian believers to grow in Christ and serve Him actively in their local churches and communities.

We commit to work together over the next five years (2023-2028) to:

1. extend and deepen existing work among diaspora communities, including identifying unreached diaspora groups, reaching 2<sup>nd</sup> generation migrants and expanding into new countries
2. share courses more effectively, including using digital delivery (both e-learning and m-learning), making courses available via the online portal, and other cost-effective methods
3. identify new partnerships and build and strengthen existing partnerships with churches and organisations around the world
4. identify, equip, train and nurture more facilitators and leaders to serve diaspora communities
5. work with others to share fruitful practice and recognise learning and training received in other contexts
