

Microsoft TEAMS

Teams is a collaboration tool as well as a video conferencing tool Advantage for TEAMS is its integration with Office 365 MS products. This means you can work together, sharing files etc. For video conferencing, TEAMS also has the ability to transcribe your verbal meeting discussions INTO TEXT - powerful! (this beats Zoom any day; but only for English and Spanish)

- 45 minute detailed tutorial on Microsoft TEAMS: <https://www.youtube.com/2zB2jiCxxuQ>
- Flipped Classroom on Teams: <https://www.youtube.com/LiEGspEwZ-E>
- 5 key features of TEAMS: <https://www.youtube.com/49GPJnuM>
- 8 TEAMS Tips: <https://youtu.be/Cw9uXfgTLQ>

Good news for ACCREDITED schools, colleges and universities: Microsoft Office 365-A1 is free for ALL your students faculty and staff, and very cheap for better A3 and A5 versions.

ZOOM-videos

Find out more about ZOOM by watching the videos below.

Basic Tutorials:

- Zoom help video: From the Flipped Classroom: <https://www.youtube.com/9guqRELB4dg>
- Basic tutorial: <https://youtu.be/9guqRELB4dg>

Meeting rooms and breakout rooms

- Using Zoom meeting room tools: <https://support.zoom.us/hc/en-us/articles/201362603-What-Are-the-Host-Controls->
- Breakout rooms for paid subscriptions (allows you to break up an online Zoom meeting into smaller discussion groups, in which the leader can move between the groups. This would be important if you had 10 or more participants in a Zoom meeting, and wanted them to share in a discussion, with each person contributing their thoughts equally.): <https://support.zoom.us/hc/en-us/articles/206476093>
